Mobile: +91-7972234174

Skills

Languages: HTML, CSS, JavaScript, C, Java, Python
Frameworks/ Libraries: Bootstrap 5, Tailwind CSS, NodeJS
Tools/Platforms: MongoDB, REST APIs, Git & GitHub
Soft Skills: Project Coordination, Rapid Skill Acquisition, Cross-Functional Collaboration

Projects

Swapnest: Full-Stack Used-Goods eMarketplace | GitHub March - 2025 to April - 2025

- Developed a full-stack marketplace enabling 100+ product listings, allowing users to post, browse, and manage used items with a streamlined listing workflow.
- Built advanced search and category-based filtering that improved product discovery efficiency by ~45%, reducing user navigation time significantly.
- Designed a fully responsive UI using Bootstrap 5 + EJS, resulting in a 30% improvement in mobile usability and smoother cross-device browsing.
- Implemented secure backend APIs with Node.js + Express.js, supporting authentication, CRUD operations, and user dashboards with average API response times under 180ms.

Tech: HTML, CSS, JavaScript, Bootstrap 5, EJS, Node.js, Express.js, MongoDB (Mongoose)

AbodeAway: Full-Stack Vacation Rental Platform | GitHub October - 2024

- Developed a full-stack web platform for browsing 100+ verified property listings, filtering results, and booking stays.
- Integrated Mapbox to provide interactive, real-time property visualization, improving navigation efficiency by 40%.
- Designed responsive UI with Bootstrap 5 + EJS, reducing bounce rate by ~25%.
- Built scalable backend APIs with Node.js + Express.js, supporting listing management, booking flow, user data handling, and search queries with sub-150ms response time.

Tech: HTML, CSS, JavaScript, Bootstrap 5, EJS, Node.js, Express.js, MongoDB (Mongoose), Mapbox

Training

Core & Advanced Java | Board Infinity August - 2024

- Completed 40+ hours of structured training covering OOP concepts, exception handling, collections framework, multithreading, JDBC, and advanced Java techniques.
- Developed multiple hands-on Java applications, strengthening problem-solving and object-oriented design skills with 100% assignment completion.
- Built real-world mini projects applying industry practices in modular code design, debugging, and performance optimization.
- Gained practical experience in writing clean, reusable Java code aligned with enterprise-level development standards.

MSBTE Industrial Training | ProAzure August - 2021 to September - 2021

- Completed 40+ hours of industrial training covering WordPress, RPA, HTML, CSS, Python, and PHP.
- Gained hands-on experience building dynamic web pages, automating workflows, and applying core programming concepts across multiple technologies. Achieved 80% overall performance in assessments, practical assignments, and module evaluations.
- Strengthened full-stack fundamentals by working on multi-technology tasks aligned with MSBTE curriculum requirements.

Certificates

Generative AI with Large Language Models (DeepLearning.AI, Coursera) | Certificate May - 2024
Cloud Computing (NPTEL) | Certificate March - 2024

Extra-Curricular Activities

Participated in the Code-A-Haunt Web Hackathon organized by Coding Blocks LPU February - 2024
Designed and implemented a responsive web application during the hackathon, achieving 100% completion of assigned tasks while working with the most junior member on the team.

Participated in E-RYLA 2020 – Rotary Club of Pune South August - 2023
Completed a 1-day youth leadership program with 5+ interactive sessions focused on communication, teamwork, and personal development.

Education

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 3.52** Since August - 2023

New Satara College of Engineering and Management Pandharpur, Maharashtra
Diploma - Computer Science and Engineering; **Percentage: 76.00%** April - 2019 to March - 2022

The Progressive Educational Society's Urdu High School Solapur, Maharashtra
Matriculation; **Percentage: 62.00%** April - 2018 to March - 2019
